- * Installation for Fixed Smart LED Showerheads

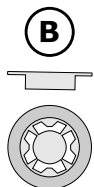

Flow Regulator

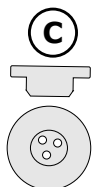

- * The Use of Flow Regulators B & C are optional to install since the Water flow & pressure varies in different areas.

Mesh Gasket

Medium

Low

For easy installation of your Smart LED Showerhead you will need:

- * To READ ALL the instructions online completely before beginning.
- * To READ ALL warnings, care and maintenance information.
- * To purchase the correct watersupply hook-up
- * Avoid staring directly into LED Lights
- * A mesh gasket "A" is included in every unit Hand tighten the showerhead onto the existing shower arm.
- * The use of either low or medium flow regulator is optional since the water pressure may vary from one location to another.
- * No Batteries Required The LED lights should illuminate as soon as the water flows through the showerhead.

- * **Flow regulator B & C are sold seperately and are not included**

- * Installation for hand held Smart LED Showerhead with flexible hose.
